1. Hierarchical clustering is useful as different clusters have different * 1 point

_____.

- ☐ Centroids
- ☒ Resolution
- ☐ Distance

2. Which of the following distances between clusters is the maximum distance of two points in the clusters?

* 1 point

- ☐ Single
- ☒ Complete
- ☐ Average
- ☐ Centroid

3. Which of the following distances between clusters is the minimum distance of two points in the clusters?

* 1 point

- ☒ Single
- ☐ Complete
- ☐ Average
- ☐ Centroid

4. The threshold in a dendrogram is present on the X-axis. *

1 point

- ☐ TRUE
- ☒ FALSE

5. Which of the following are not hierarchical clustering methods? *

1 point

- ☐ BIRCH
- ☐ ROCK
- ☒ DBSCAN
- ☐ CHAMELEON
